

The Worst Day

CHROM

These are the days of hollows
The days of hide and seek
I heard the news and swallowed
I'm shocked, I cannot speak
Silence in every scene now
Nothing makes sense at all
My head is spinning around
I'm sick of sorrows

I cannot see
The truth behind my mind
I can't believe
That there's nothing else to find
Want to receive
A sense to live this time
I try to breathe
On the worst day in my life

The flowers fade in my hand
There's nothing I can do
The powers that I can't stand
I'm gonna forsake you
In my heart a spark is glowing
The last one as I know
Deep down the hate is growing
Someone just overstep the bow
Someone just overstep the bow

I cannot see
The truth behind my mind
I can't believe
That there's nothing else to find
Want to receive
A sense to live this time
I try to breathe
On the worst day in my life

I cannot see
The truth behind my mind
I can't believe
That there's nothing else to find
Want to receive
A sense to live this time
I try to breathe
On the worst day in my life

I cannot see
The truth behind my mind
I can't believe
That there's nothing else to find
Want to receive
A sense to live this time
I try to breathe
On the worst day in my life
