

Circled Sun

Chromatics

Circled sun You are not the only one Circled sun To have fallen
from the sky Circled sun I have fallen from the sky Circled sun
I have fallen from the sky

After all we say is done Can our hearts still beat as one? Will
our love begin to fade? What is left of what we made? Will our
grip turn into gold? And our hearts return to stone? After all
we've seen & done After all we've seen & done

In a haze of right & wrong I awake without a song After all we'
ve seen is gone After all we've said is gone

Circled sun You are not the only one Circled sun To have fallen
from the sky Circled sun I have fallen from the sky Circled sun
I have fallen from the sky

I have fallen from the sky I have fallen from the sky
