

## Closer To Grey

Chromatics

Summer skin  
Faded now  
Rhythm blocks the lights out  
In a dream  
Fever breaks  
Reaching for the water  
You say the world is raining colors  
I see you're standing close to grey  
You say you'll never kiss another  
I see you're running far away

Summer skin  
Faded now  
Can't seem to remember  
Days go by  
Chasing nights  
Nothing lasts forever  
You say the world is raining colors  
I see you standing close to grey  
You say you'll never kiss another  
I see you running far away

Summer skin  
Faded now  
Touch the sound of silence  
Hazel eyes  
Full of tears  
Searching for the summer  
You say you'll never kiss another  
I see you standing close to grey
