

We Drink

Chrome Division

Fill those glasses and used it all
Time to get those shoes on
Get the drink get the ice get it right
You're looking hot tonight

Ohhh
Turn it up loud
Ohhh
Tonight there is no doubt.
It's the feeling you get
When you drink with your friends
Your problems just fade away
Don't check your time
Cause you already know
You decided to stay
We drink we drink
There will be no trouble tonight
We drink we drink
Sit your ass down I don't want to fight

Here we go again..
Shake those glasses and get it right.
I'm kind of thirsty I can't wait all night.
Come on closer I see you there
Spread your hair out like you don't care

Ohhh
Turn it up loud
Ohhh
Tonight there is no doubt.
It's the feeling you get
When you drink with your friends
Your problems just fade away
Don't check your time
Cause you already know
You decided to stay
We drink we drink
There will be no trouble tonight
We drink we drink
Sit your ass down I don't want to fight

Let me see what we got going on
Out here tonight
MMMMM I like what I see
Do you know what time it is?
Yeah
It's time to make some damage

It's the feeling you get
When you drink with your friends
Your problems just fade away
Don't check your time
Cause you already know
You decided to stay
We drink we drink
There will be no trouble tonight
We drink we drink

Sit your ass down I don't want to fight
