

# Bend The Rules

Chromeo

Uh  
Hit me up when the mood's right  
In the moonlight we can walk and talk  
I don't wanna fuss, I don't fight  
But it's been ten years, we should catch up  
Hit me up when you feel safe  
You pick the place, we can walk and talk  
If it ain't rushed it ain't fake  
I just hope I'm getting through to you

I feel some type of guilt  
It happens all the time  
I'm the same I feel it too  
It happens often  
A face-to-face in a public space  
And we won't cross that line  
'Cause we know what not to do  
The moment we're together

It's nothing wrong if we can bend the rules  
Bend the rules  
It's nothing wrong if we can  
Bend the rules to see each other  
It's nothing wrong if we can bend the rules  
It's what we choose  
It's nothing wrong if we can  
Bend the rules to see each other

Hit me up when the time's right  
In the twilight we can walk and talk  
I guess we've both been through it  
But it's been ten years, I wanna know how you're doing  
Call me up if you can't sleep  
Don't wanna read, we can pillow talk  
We can be friends and not creep  
I just hope I'm getting through to you

I feel some type of guilt  
It happens all the time  
I'm the same I feel it too  
It happens often  
A face-to-face in a public space  
And we won't cross that line  
'Cause we know what not to do  
The moment we're together

It's nothing wrong if we can bend the rules  
Bend the rules  
It's nothing wrong if we can  
Bend the rules to see each other  
It's nothing wrong if we can bend the rules  
It's what we choose  
It's nothing wrong if we can  
Bend the rules to see each other

Bend the rules  
It's nothing wrong if we can

Bend the rules to see each other  
Bend the rules  
It's nothing wrong if we can  
Bend the rules to see each other  
Bend the rules, bend the rules
