

# Lost And Found

Chromeo

Remember Steve, he's such a thief  
He stole your heart and promised he would never leave  
And Stephanie, oh, what a tease  
We fell in love and then we turned to frenemies  
Remember Rob was on his job  
Until you caught him talking with your best friend  
And then there was Simone, I should've known  
She stuck around a minute then the next she's gone

But you're the one that got away, ran away  
When they thought that you would stay down  
I guess we both needed a change  
And it saved the day  
Found a way out

Girl, we've seen it all between you and I  
Exes so lame, they got no shame  
If they ever run into you and I  
They should apologize

I was lost, now I found you  
I was lost, now I found you

Remember Paul, he's dark and tall  
And handsome but he ends up playing you for a fool  
And I won't even mention Ella  
I could write a whole novella  
About the way she caught an attitude

But you're the one that got away, ran away  
When they thought that you would stay down  
I guess we both needed a change  
And it saved the day  
Found a way out

Girl, we've seen it all between you and I  
Exes so lame, they got no shame  
And if they ever run into you and I  
They should apologize

I was lost, now I found you  
I was lost, now I found you  
I was lost, now I found you  
I was lost, now I found you

Girl, we've seen it all between you and I  
And if they ever run into you and I  
They should apologize

I was lost, now I found you  
And I don't know what I would manage to do  
I was lost, now I found you  
And I don't know what I would manage to do without you  
I was lost, now I found you  
God only knows the type of things we've been through  
I was lost, now I found you  
And I don't know what I would manage to do without you
