

# Raspberry Blush

Chromeo

There she goes wandering across the room  
It's a crimson moon  
And I'm just hoping she's not gone too soon  
I guess I'll try to make some eye contact  
But if she eyes me back  
I might turn red  
I don't know how to act

Cause time is of the essence  
We're no longer adolescents  
And I don't wanna let her down  
All you need is patience  
Strike up a conversation  
When there's no one else around

I call her Raspberry Blush  
Feel some kind of rush  
Every time I pass her and our shoulders brush  
Raspberry Blush  
Not asking for much  
Every time I see her, I just wanna touch  
Just wanna touch

Saw her again  
It was the next day  
Now what's the best play?  
Feel like taking her on the best date

You never know until you try your luck  
Shoot your shot  
Pray for the best  
Don't let the stress mess up what you've got

Cause time is of the essence  
We're no longer adolescents  
And I don't wanna let her down (I don't wanna let you down)  
All you need is patience  
Strike up a conversation  
When there's no one else around (When there's no one else around)

I call her Raspberry Blush  
Feel some kind of rush  
Every time I pass her and our shoulders brush  
Raspberry Blush  
Not asking for much  
Every time I see her, I just wanna touch  
Just wanna touch
