

# Somethinggood

Chromeo

An electrifying moment  
A blast of lightning through the storm  
Should have seen it as an omen  
But I chose to carry on

This is what those tales are made of  
It was rather true to form  
A boy sees girl then his knees just drop  
Heartbeat stops

I care for you  
And I'll switch the word up if you want me to  
I care for you  
But caring is so see-through  
The sequel is a thing we call love

I can't leave you alone  
It's rattling my bones  
I can feel it  
It's just the start and this is something good  
Something good, something good, something good, this is something good  
I can never lie  
I'm sweating but my hands are dry  
Say the word and I'm the first one running  
I'm the first one running

And every little move you make is no mistake  
So don't just take me for a pretender  
I'm a contender

I can't leave you alone  
It's rattling my bones  
I can feel it  
I can feel it  
I can feel it  
(It's just the start and this is something good)

Stop it right there  
Stop it right there  
Oh, stop it right there  
Stop it right there

You think love is a thing of the past  
I never felt so real  
I want something that's gonna last  
I never felt those chills

You think love is a thing of the past  
I never felt so real  
(I never felt so real)  
I want something that's gonna last  
I never felt those chills  
(I never felt those chills)

You think that love is just a thing of the past  
(Thing of the past)  
I want someone that's gonna make it last

(Make it last)

Stop it right there [x4]
