

Way Too Much

Chromeo

I should have known that you were in a situation.
You got a man but is he loving you the right way?
I don't step in because I know my limitations
But I would really like to be with you tomorrow.

Let me introduce myself I'm just a young boy. (young boy)
I never thought that I'd fall victim to a woman.
She took my pride, she took my soul in my confusion
And it all started when she told me to come over.

Ooh, ain't no doubt about it (girl)
Cause you were on my mind
Way too much (much much much)
Ooh, ain't no doubt about it (girl)
Cause you were on my mind
Way too much (much much much)

My momma told me about girls who hide emotions.
She said that every single one's got an agenda.
I gave no signals but you got the wrong impression.
I guess I should've taken time to know you better.

Ooh, ain't no doubt about it (girl)
Cause you were on my mind
Way too much (much much much)
Ooh, ain't no doubt about it (girl)
Cause you were on my mind
Way too much (much much much)
