

There's a first time for everything
Here's to new memories
You are my genesis

I won't let you walk away
I love your energy
Here's to new beginnings
Don't hold on to yesterday
This joy that were living in
Is healing us from within
You're like music to my soul
Our journey is like poetry
Love is our destiny

We're never alone
Once we are together we're home
I never doubt for a moment
This is where we belong
You are my genesis
You are my genesis
You are my genesis
You are my genesis
You are my genesis
You are my genesis
You are my genesis

God knows your my genesis
