Knock Down the Walls

Chubby Checker

You can talk to me
You can...

Always talking to you
Always walking through you
I'll never, ever let you down
Always thinking of you, oh how much I love you
When you think of me, I can be found
Know it's hard to see it
Know it's hard to be it
You must be careful; you must be wise
Don't you let it mess you
Come on let me dress you
I'll help you fight the father of lies

Knock down the walls
That's keeping you from seeing
That's keeping you away from me
Light up the dark
I don't want you crying
I made you, you belong to me

There is always fire
Burning your desire
Pulling on your tender hearts
Don't let evil break you
Come on let me take you
I'll put my power in your hearts
Come on let me teach
You know how to reach
I'll be right here to bring you on
I'll help you fight the fight
Bringing in the light
And all the darkness will be gone

Knock down the walls
That's keeping you from seeing
That's keeping you away from me
Light up the dark
I don't want you crying
I made you, you belong to me

Knock down the walls
That's keeping you from seeing
That's keeping you away from me
Light up the dark
I don't want you crying
I made you, you belong to me
