

So Long

Chuck Berry

So long
I hope we'll meet again someday
And I hope that, maybe you will say
Oh darling, I was wrong

So long
Gee, I hate to see you go
You're the world to me, you know
You've been mine, so long

All along
In my memories of you
I can see that you're lonely too

But you're my own
Even though we're far apart
You will be, you will be right here in my heart
So long

So long
Though you leave me here to cry
This could never mean goodbye
You've been mine, so long
