Still Got The Blues

Chuck Berry

```
How many times have you heard this song
If I had what he has, my blues would be gone
But, I´ve got the blues, nothing but the blues, for you
I could have been happy with fortune in vain
I have everything that a poor man could name
But, I still have the blues, nothing but the blues for you
Sergents all over think that I´ve found
Someone who´s even give me piece of mine
Talkin´ the unknown, out of my head
I just can´t remember I think that I´ve said
Give me chance and take me back
You´ll see a change in the way I act
Cause I got the blues, nothing but the blues for you
Sergents all over think that I´ve found
Someone who´s even give me piece of mine
Talkin´ the unknown, out of my head
I just can´t remember I think that I´ve said
Give me chance and take me back
You´ll see a change in the way I act
I won´t have the blues, no, no blues for you
```
