

# Wonderful Woman

Chuck Berry

Oh well, look at here now  
This just makes my day  
Yes a wonderful woman  
She just woke my way

Well I was standing in [?] like a leaf on a willow tree  
Open the great big beautiful eyes following me  
I keep just wish thinking but I hope that it still might be

Man she's so beautiful, she have long brown wavy hair  
Wearing a [?] that was, whoo, on a van  
Man she could pull up a man in a beauty scene anywhere  
You don't think

Have you ever seen a woman done harm your kid  
Who would betray you twice and you know will still forgive  
If you have they were alive to [?] to live

Man it's too good, she's all that I could hold and stare  
By the star above she knew that my heart goes there  
She just went over control my heart, but she didn't dare

When I feel this way I just sing what I just have to say  
You know I need satisfaction, I didn't get any yesterday  
Well it's up to me, if it be that she gets away

I feel good like's it party time, don't you know  
It done blew my mind when she smiled and said hello  
Well it broke my heart when she told me it's time to go

You know I wish you for luck  
But I know I have to close the show  
I but you was rocking me baby with your rhythm in the second row  
w  
Just thinking about it breaks my heart I have to let you go  
Oh yeah
