

Age of Miracles

Chuck Prophet

The night is gonna crush the day
Once it was the other way
We hope that you enjoy your stay
In the age of miracles
There's plenty work for everyone
Where two and two add up to one
Let's sing this song in unison
In the age of miracles
Hey, okay, alright
In the age of miracles
Gonna eat and drink our fill
Lose that baby fat for real
No secrets left to conceal
In the age of miracles
Sometimes we run short of space
So careful what you throw away
This is where the children play

In the age of miracles
Hey, okay, alright
In the age of miracles
Oh mama hold on
I think I feel something
I've waited too long to feel nothing
Oh no
Honey don't get so upset
Anything you want, I can get
We've barely gotten started yet
In the age of miracles
Don't go now, there's more to see
All lost time will be retrieved
I know it's true, it's on TV
In the age of miracles
Hey, okay, alright
In the age of miracles
