

Better Than Flowers

Chuck Wicks

Some people want that ride
That country side thing
That full moonlight thing
Some people want that rush
That new someone thing
Fun for a while thing
But that ain't me

Cuz I ain't that take me home for the night kinda fling
This ain't a buy a dozen roses, bring 'em to ya, anybody can do
that, baby

But I could make love to you for hours
It's better better than flowers
It's better better than flowers

That's what you want, girl
I'll find a field, girl
I'll pick 'em fresh and throw some pedals on your bed, girl

And I could make love to you for hours
And I could make love to you for hours
It's better better than flowers
It's better better than flowers

Cuz I ain't that take me home for the night kinda fling
This ain't a buy a dozen roses, bring 'em to ya, anybody can do
that, baby

I could make love to you for hours

I could make love to you for hours
I could make love to you for hours
It's better better than flowers
It's better better than flowers
It's better better than flowers
It's better better than flowers
