

# Hold That Thought

Chuck Wicks

Close your eyes  
and picture this  
laying in bed in the candle light  
we start to kiss  
holding your body in close to mine  
now picture us in the moment before we make love

Now hold that thought  
hold it right there  
let you mind keep running wild  
til I get there

Just imagine  
me loving on you all night long  
can you see it, feel it, girl are you there yet  
Now hold that thought

Wish that I was already home  
girl I been thinking about tonight all day long  
so why do you lay back and fantize  
about me and you  
and everything we're gonna do

Now hold that thought  
hold it right there  
let your mind keep running wild  
til I get there

Just imagine  
me loving on you all night long  
can you see it, feel it, girl are you there yet  
Now hold that thought

Just imagine  
me loving on you all night long  
I can see it, feel it, girl are you there yet  
hmmmmmm  
Now hold that thought  
Now hold that thought  
Girl I'm almost home...
