

# I Don't Do Lonely Well

Chuck Wicks

Baby since you've been gone  
I leave the TV on  
Gotta hear somebody's voice  
I just need some kind of noise  
I lay some pillows down  
To wrap my arms around  
I pretend I'm holding you  
I know it's sad, but it's what I do  
To keep me from going crazy

I can get up and face today  
Just as fine all by myself  
Go out and take on this world  
And get it done, get it done like nobody else  
Oh but I don't do lonely well

I got some real good friends  
Check on me now and then  
Say I need to get a life  
Say I need to get out at night  
It's easy to say alright  
You're not the one going crazy

I can get up and face today  
Just as fine all by myself  
Go out and take on this world  
And get it done, get it done like nobody else  
Oh but I don't do lonely well

Here comes another sunset  
Here comes another long night  
I'm not over you yet  
I'm not over you yet

I can get up and face today  
Just as fine all by myself  
Go out and take on this big old world  
And get it done, get it done like nobody else  
Oh I can get up and face today  
Just as fine all by myself  
Go out and take on this big old world  
And get it done, get it done like nobody else  
Oh but I don't do lonely well  
I don't do lonely well
