

Started in a Bar

Chuck Wicks

It all started in a bar
Couple beers and conversation way too hardy
'Cause the band played way too loud
Didn't care
Just kept spinning around on the dance floor
To your favorite song, hope they played more
Didn't wanna go home
Both trying not to go too far
It all started in a bar

The kinda night where I didn't really wanna go out
Had friends that flew in from out of town
Told 'em I was good for one or two
But then in walked you
And I guess I must've stared a little too long
'Cause you laughed, you tried to play it off
And didn't come over
So I came over

And then it started in a bar
Couple beers and conversation way too hardy
'Cause the band played way too loud
Didn't care
Just kept spinning around on the dance floor
To your favorite song, hope they played more
Didn't wanna go home
Both trying not to go too far
It all started in a bar

You walked in and yeah I knew
Things are gonna change
Lonely in this world
But soon forget our names
And time will seem to fly
Like it did yesterday
But we'll always have that night
When everything changed
When it started in a bar, yeah

Yeah, it started in a bar
Couple beers and conversation way too hardy
'Cause the band played way too loud
Didn't care
Just kept spinning around on the dance floor
To your favorite song, hope they played more
Didn't wanna go home
Both trying not to go too far
It all started in a bar
