

# One Way or the Other

Chumbawamba

Peace won't come  
Peace won't come  
Peace won't come by words alone

There's a world in front of you  
You've only got a certain space to go  
I go to me factory and come back  
That's supposed to be my bit of seeing the world  
The whole world in front of you  
The whole world to see and things that haven't been discovered

No pretty please, pretty pretty please [repeats]

One way or the other  
Something's got to change  
Humdrum has a stammer  
Saying w-w-w-whatever  
One way or the other

No pretty please, pretty pretty please [repeats]

Peace won't come by words alone  
Peace won't come by words alone

I'm so low on order  
But high on what I want  
And I've got your number  
And I'm coming over  
One way or the other

No pretty please, pretty pretty please [repeats]

One way or the other  
One way or the other

Peace won't come by words alone  
Peace won't come by words alone
