

## Someone Else

Chumbawamba

For someone  
To drop that bomb

Someone else must play a part  
A link in the chain eight hours a day  
Never thinking of morality  
Follow commands, blindly obey

Someone else  
Could it be you?  
Think about what you do  
And for who  
Who  
Who

Someone else must tell the lies  
For someone else to make the laws  
For someone else to do research  
For someone else to make that bomb

Someone else  
Could it be you?  
Think about what you do

Making money, making weapons  
Filthy fingers in filthy pies  
Investing, buying  
And financing  
Company profits built on lies  
Lies  
Lies  
Lies  
Lies [repeat until end of song]

They use their lies  
To get their heavy work done  
They use their lies  
To get their heavy work done
