Oh, for now I wish upon a star

Oh even if my scent gives off slightly

You're gonna be attracted to me

Lipstick shining on my lips

Your eyes are all on me

I'm too good for you but I'll play with you a little

I'll make you mine tonight

So you can't escape from me

Your eyes sparkle as they look at me from far away
I caught you red handed woo
Because I shine so much
Make them all wanna smile

Tonight, I'm the star, like star
Only look at me tonight
This magic makes everyone only look at me
This fantasy will last forever, oh oh oh oh

Make a wish
Make a wish
O-o-o-o
If this is a dream, don't wake me up

What a bliss
What a bliss
O-o-o-o
If I blink, I feel like I'll wake up

Make a wish
Make a wish
Tell me that this isn't a dream
Oh, for now I wish upon a star

Oh my sweet voice
Is enough to melt you
You came into my heart, sweet boy
No exceptions for you, no (oh sweet boy)

I'm too good for you but I'll play with you a little
I'll make you mine tonight
So you can't escape from me

If you keep staring at me like that
I'll want you at once
Because I shine so much
Make them all wanna smile

Tonight, I'm the star, like star
Only look at me tonight
This magic makes everyone only look at me
This fantasy will last forever, oh oh oh oh

Make a wish
Make a wish
O-o-o-o
If this is a dream, don't wake me up

What a bliss
What a bliss
O-o-o-o
If I blink, I feel like I'll wake up

Make a wish
Make a wish
Tell me that this isn't a dream
Oh, for now I wish upon a star

I had a sweet dream
I think I left you there

Oh you
Will you take me there again?
Make a wish to the stars

Make a wish
O-o-o-o
If this is a dream, don't wake me up

What a bliss
What a bliss
O-o-o-o
If I blink, I feel like I'll wake up

Make a wish
Make a wish
Tell me that this isn't a dream
Oh, for now I wish upon a star
