

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're all wasting

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're all wasting

Here we stand 20 thousand miles away  
from your concerns cause we feel that way we will fake  
what we're here for in the first place  
And we're just getting better  
We'll be the worst disaster

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're all wasting  
What's the point have to read in to your enemy now

Now assign to make yourself a favor  
But you sell to these fake saviors  
It's been a long time that they lost their honesty  
Their Words! Are So (I died?)  
Their Words! Are So (Recent?)

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're wasting  
What's the point Have to read in to your enemy now

Hey! Can't you hear that's the same old melody  
The one that we always sing and means everything  
But we do get over it and it is perfectly clear

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're all wasting  
Always

Hey! Can't you see we're the kids we used to be  
it's always been that way  
That's how we're all wasting  
Always

Hey! Can't you hear that's the same old melody  
The one that we always sing and gave us everything  
Everything□.
