It's lie, I couldn't believe it
Even with a deep sigh, my heart trembles
Don't try, don't turn away
I recognized you, the one who resembles me
I've always been afraid of love
Past stories linger in my heart
Your soul is weary, hesitant
I want to share even the painful memories

Is it okay if I come closer to you?
Is it okay to wait?
For you to feel me too
It seems like the sky sent you
For my sad days
To give me a lot of love

Don't cry, why do you look back?
Open your heart, I will understand
Tonight, I'll pray with folded hands
Don't make me cry, like you
We might be the same fools
Enduring alone for so long
Like the seasons of love, it returns
I want to protect you by your side now

Is it okay if I come closer to you?
Is it okay to wait?
For you to feel me too
It seems like the sky sent you
For my sad days
To give me a lot of love

It's a love that gives me my life back
I want to protect you so you don't get hurt again
Can I stay here with this destiny?
Only you, like this, forever
