

Get Away

CHVRCHES

I can only see you when I close my eyes.
There's nothing left of you here.
We had the time, we had the time.

The things that I remember I do not regret.
They don't mean a thing here.
We had the time, we had the time.

I'll be your guide
So you can see the other side
Then i will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away,
Never let you get away.

Everything you prayed for is not overhead
No one else will save you
Wake up your mind,
Wake up your mind.

Trust me when I tell you
We are on our own.
Overlap your fingers
And run through the pines.
We'll run through the pines.

I'll be your guide
So you can see the other side
Then i will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away,
Never let you get away.

I'll be your guide
So you can see the other side
Then i will never let you get away
Never let you get away

I'll hold you hands so you can see
Crossing your heart and hoping
To never let you get away,
Never let you get away.

Never let you get away (4x)
