You had better run from me with everything you own cause I am gonna come for you with all that I have

I am gonna break you down
to tiny, tiny parts
I never believed
but I see it now
I'm learning your lesson, I'm learning your lesson

Did it make you feel so clever did you wear it on your sleeve did you see another picture where I was not a part so far entwined

there's no other way
never run far
take a good swing at me
and everything is even
so finally, we agree
no place for promises here
you better run, you better run so
Hide, hide, I have burned your bridges
now I'll be a gun
and it's you I'll come for
Hide, hide, now it's all so easy
I will be a gun

who are you to tell me how to keep myself afloat I tread the water all the while you stuck in the knife that you held at my back

did it make you feel so clever
did you wear it on your sleeve
did you see another lifetime
where I was not a part so far entwined

there's no other way
never run far
take a good swing at me
and everything is even
so finally, we agree
no place for promises here
you better run, you better run so
Hide, hide, I have burned your bridges
I will be a gun
and it's you I'll come for
Hide, hide, now it's all so easy
I will be a gun

there's no other way never run far take a good swing at me and everything is even

so finally, we agree no place for promises here you better run, you better run so Hide, hide, I have burned your bridges I will be a gun and it's you I'll come for Hide, hide, now it's all so easy I will be a gun and it's you I'll come for and it's you and I'm gonna see that you won't go far and I'm gonna see that you won't go far and I'm gonna see that you won't go far and I'm gonna see that you won't go far
