

# What Are You Afraid Of?

Chxrlotte

(Alright)

Welcome to the dark side of my mind  
Come with me, and don't get left behind  
Darkness of my own creation  
It's a time bomb situation

Safety off, I am a loaded gun  
I know your fears more than anyone  
I'm in hell, it's nice to meet ya  
Tell the clergy and the preacher

Come on, what are you afraid of?  
Don't you wanna play this game of  
Cards and knives where no one wins?  
The queen of giving in  
Wanna be my friend?

I'm a nightmare, I am poisonous  
Can't cope with all of life's pointlessness  
Gonna wish you never knew me  
Listen, and you'll see right through me

Look at me, and see my eyes are dead  
It's the monsters inside of my head  
Now I'm here to let them out  
And burn this whole thing to the ground

Come on, what are you afraid of?  
Don't you wanna play this game of  
Cards and knives where no one wins?  
The queen of giving in  
Wanna be my friend?

Please forgive me, please have mercy  
Save me from my sins  
Save me from myself  
The patron saint of giving in  
Please forgive me, please have mercy  
Save me from my sins  
Save me from myself  
The patron saint of giving in

Come on, what are you afraid of?  
Don't you wanna play this game of  
Cards and knives where no one wins?  
The queen of giving in  
Wanna be my friend?

Come on, what are you afraid of?  
Don't you wanna play this game of  
Cards and knives where no one wins?  
The queen of giving in  
Wanna be my friend?
