

## 21 Seconds

Cian Ducrot

So I've been waiting for you to come round  
You're never late is your heart at sundown  
You let me inside to your sacred space and I though  
That we could be safe in this place but we're not

So I thought if you and I believe  
That you'll discover another love with me  
So I thought if you and I believe  
That you'll discover another love with me

If only you'd notice me  
If only you'd notice me  
21 seconds away from saying those three words  
If only you'd notice me

Called you to say that I thought you were wrong  
How could I escape from a feeling this strong  
But you shot me down like we were over  
In this love I'm drunk and you're too sober

So I thought if you and I believe  
That you'll discover another love with me

If only you'd notice me  
If only you'd notice me  
21 seconds away from saying those three words  
If only you'd notice me

21 seconds away from saying those three words  
21 seconds away from saying those

If only you'd notice me  
If only you'd notice me  
21 seconds away from saying those three words  
If only you'd notice me
