

Chewing Gum

Cian Ducrot

Here we go
Guess we've just done it again
Feeling it come to an end
She said it's hard to last at twenty-one
Here we go
I gotta deal with your friends
I bet they wish that I'd burn in hell
It's not like we've been here before

And baby, if you wanted to then we could talk
Yeah, we could talk all night
But would that get us anywhere?
'Cause when we talk, we talk until we fight
And I know you love
To bring your mother into all this
But she still thinks of us like we're kids
Goddamn
But when we talk, we talk until we fight

Yeah, I could
Go run my mouth about you
Tell all my friends just to block you
Announce I'm single on the news
Yeah, I could
Go out and get a new trim
I let myself go, must admit it
I'll always care about you

And baby if you wanted to then we could talk
Yeah, we could talk all night
But would that get us anywhere?
'Cause when we talk, we talk until we fight
And I know you love
To bring your mother into all this
But she still thinks of us like we're kids
Goddamn
But when we talk, we talk until we fight, oh

Always chewing gum when we start barking
No, we won't stop it, no, we won't stop it, no, we won't stop it
Always keep my love in my back pocket, not my bad pocket
No, I know that we're not perfect but we won't stop

Then we could talk
Yeah, we could talk all night
But would that get us anywhere?
'Cause when we talk, we talk until we fight
And I know you love
To bring your mother into all this
But she still thinks of us like we're kids
Goddamn
But when we talk, we talk until we fight

And we talk, and we talk, and we talk, yeah
And we talk, and we talk, and we talk, hmm
