

Know Me Again

Cian Ducrot

I don't know why
I look for you
In crowded rooms
When you get by
Spending your nights
Surrounded by everyone but me
Can't help but think
There's still a chance
What can I do
You're so close to me but I want to get closer to you

You left me standing alone in the dark
Now I'm on my way home in someone else's car
And now I know that you're the only one I wanna call

Funny how you gave me more of a chance
When you didn't know me more than a first glance
And now that you know me you choose not to love me at all

Oh I, wish, that I
Didn't know you so that I
Can get to know you again
Oh I, wish, that you
Didn't know me so that you
Would want to know me again

Thinking back
To the night
That we first met
Shining lights
Drinking wine
You just had to get to know me
And now you're set on the idea that we're just friends
You think you know me but I wanna be known again

'Cause you left me standing alone in the dark
Now I'm with someone else in this stenchy old bar
And now I know that you're the only one I wanna call

Funny how you gave me more of a chance
When you didn't know me more than a first glance
And now that you know me you choose not to love me at all

Oh I, wish, that I
Didn't know you so that I
Can get to know you again
Oh I, wish, that you
Didn't know me so that you
Would want to know me again

Oh I, wish, that I
Didn't know you so that I
Could get to know you again
Oh I, wish, that you
Didn't know me so that you
Would want to know me again

I wish that I
I didn't know you yeah
So that I could get to know you again
Oh I, wish, that you
Didn't know me so that you
Would want to know me again

I wish that I
I didn't know you yeah
So that I could get to know you again
I wish that I
You didn't know me
So that you could know me again
