

If Only

Ciara

Baby boy got your girl so deep in love
He got me thinking about that ass on the wake up
If only I can wake up, next to you
Got me blushing, just imagining the things we would get into

When the thought of you and me arises
Ain't no limit to what we could be
Sitting on a deck of a yacht named after us ohh...

If only you knew
If only you knew
I'd be with you
If only you knew
Only you knew
I'd be with you

I told myself next time I see you
Just gotta make it happen
Thought I was ready, but I saw you and I choked
Now I'm thinking to myself I really need a boy like you
because baby you're so...
I see myself as your "Wonder Woman"
And I can't help but wait, til the day you get with me
It will be the last time that you'll give your heart away

When the thought of you and me arises
Ain't no limit to what we could be
picture us out of town, clear waters on a sandy beach ohh...

If only you knew
If only you knew
I'd be with you
If only you knew
only you knew
I'd be with you

Cuz them other broads only front
Only want you for what you got
Cuz what I want for myself
Best believe that I can cop
But this friendship thing is killing me
And what it is that I'm trying to be
Because where I wanna be is with you
And boy if you only knew ohh...

If only you knew
(If you only knew)
If only you knew
(what I felt for you)
I'd be with you
(ohh Baby baby baby baby)
I'd be with you
If only you knew
only you knew
(ohh Baby baby baby baby)
If you knew (I'd be, I'd be, oh baby I'd be with you...)
I'd be with you

If only you knew
If only you knew
I'd be with you
If only you knew
only you knew
(I'd be, I'd be, I'd be baby baby you...)
ohh if...
