

# Keep Dancin' on Me

Ciara

Lead me out on the floor  
Bring your body closer  
Take it all, give me more  
Do me like you're supposed to  
Move with me left and right  
Slide your hands over mine  
Using all your imagination  
Leave everything behind

Take my hand, lay on my face  
Feel my heart drumming  
Dark corners, flashing lights  
Keep the music coming  
Off the Earth, on the stars  
I ain't worried about tomorrow  
Keep going till the world disappears  
Keep dancing on me  
Keep dancing on me

Take the lead, raise the floor  
Take a turn, pass the shadow  
Taste the air, touch me there  
Lean to me, nothing matters  
Tell my ears truthful lies  
Honest whispers make me sigh  
See me left, see me right  
I'm going out of my mind

See me smile, make me want to go on and on  
I'm in peace and serenity, I'm where I belong  
Off the Earth, on the stars  
I ain't worried about tomorrow  
Keep going till the world disappears  
Keep dancing on me  
Keep dancing on me

Hold me, babe  
Deep inside your heart  
Stay with me one more song  
Until my body's melting away, away, away

Keep dancing on me  
Keep dancing on me  
Keep dancing on me  
Keep dancing on me
