

Made It

Ciara

Daddy, I made it

Every night, I pray for my light to shine (Shine)
And now I can't see a thing, my light too bright
Every day, I would dream 'bout these moments
And I tried and tried (Tried)

Don't let 'em fool you, she got it from the mud
She's so much further now compared to back where she was
What's at the bottom soon has gotta go up
So close to goals that I can taste it on my tongue

I finally made it, been paper chasing
I cut my fingers, my grass is greener
Seen many places, replaced some faces
Made many changes, that's why I'm taking off

I'm going, going up till I'm gone (Up)
I'm going, going up, and it's on
I'm going, going up till I'm gone (Up)
I'm going, going up

Came up 'cause I stayed down, no waves in my faith now
I ain't never had one doubt, I ain't trip, I just prayed about
it
Family straight, yeah, we paid now, we don't pay the bills late
now (Paid)
Bank safe is my playground, I been flames since I came out (On
God)

Don't let 'em fool you, Ci got it from the mud
She's so much further now compared to back where she was
What's at the bottom soon has gotta go up
So close to goals that I can taste it on my tongue (Let's go)

I finally made it, been paper chasing
I cut my fingers, my grass is greener (Fingers)
Seen many places, replaced some faces
Made many changes, that's why I'm taking off

I'm going, going up till I'm gone (Up)
I'm going, going up, and it's on
I'm going, going up till I'm gone (Up)
I'm going, going up
