

## Sorry (Remix, Pt. 2)

Ciara

CC, what's poppin' baby?  
I really wanna ease your pain  
I really wanna ease your pain  
Don't wanna see you shed a tear again  
Don't wanna see you shed a tear again  
I wanna be the best of friends  
Oh we can become the best of friends

Baby, baby don't mistake me  
I wanna get up on it right now (right now)  
But if I let you take me, will you forsake me?  
Cause' boy this game is breaking me down (down)  
Sometimes I dream about ya, can't sleep without ya, but boy you got me trippin'  
I try to fight and I cry at night cause' I can't forget this feeling  
You missin' me right now, you could be kissin' me right now  
You walked away, I walked away, we should've stayed, baby

All you had to, all-all you had to, all you had to do, do-do  
All you had to, all-all you had to, all you had to do  
Is say that I'm sorry, sorry, sorry  
Is say that I'm sorry, sorry, sorry  
You know you want me  
You gonna miss this body, you gonna miss me shawty  
Baby, say you're sorry

Baby my body's callin' yours  
But the voice in my head is sayin' no  
Would this be the last time, I let you play with my mind  
Cause' this beat in my heart, I can't control  
You be tryna' act hard but I know your cards  
Boy who you think you're trickin?  
You could have any girl around the world, but she can't give you this feelin' g  
I Know you missin' me right now, you could be kissin' me right now  
I walked away, you walked away  
We should've stayed, baby

All you had to, all-all you had to, all you had to do, do-do  
All you had to, all-all you had to, all you had to do  
Is say that I'm sorry, sorry, sorry  
Is say that I'm sorry, sorry, sorry  
You know you want me  
You gonna miss this body, you gonna miss me shawty  
Baby, say you're sorry

You know my ego bigger than the earth  
I'd spoil your appetite, I'd eat you for desert  
I could've told you sorry but I bought the 'rarri  
You got me goin' in the zone, girl you got me vibin'  
And then I pull up in that new Bentley Spur  
I'm a franchise, I know what you're worth  
Wanna go to Paris, we can go to Paris  
I don't wanna lose you, I just got to have you

I'm really missin' you, I really wanna hug you boy  
I really wanna touch you boy

Oh baby won't you say you're sorry  
You know you miss me to, so tell me what you waitin' for  
Baby won't you say you're sorry  
Ohhh woah
