

Special Edition

Ciara

Champagne spillin', all over the ground
Dancin' like a fool with the music up loud
I can feel the love cause my family's all around
And we ain't Hollywood, yeah we love to get down

It's been a while
But I'm ready, ready, yeah I'm ready right now
It's been a while
But we're ready, ready, yeah we're ready right now

This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling
This that special edition, oh what a feeling
Let's have the time of our life, raise your cup to the ceiling
This that special edition
This that special edition
This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling

We leave the afterparty then we headed to the house
All I hear is laughter and all I see is smiles
And you know I keep it ghetto with the diamonds in my mouth
ATL shawty, you know how we get down

It's been a while
But I'm ready, ready, yeah I'm ready right now
It's been a while
But we're ready, ready, yeah we're ready right now

This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling
This that special edition, oh what a feeling
Let's have the time of our life, raise your cup to the ceiling
This that special edition
This that special edition
This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling

Hands up, hands up, let me see your hands up
You got money in your pocket and your bills paid up
Hands up, hands up, let me see your hands up
We don't do this all the time, time, time, time, time
We don't do this all the time, time, time, time, time

This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling
This that special edition, oh what a feeling
Let's have the time of our life, raise your cup to the ceiling
This that special edition
This that special edition
This that special edition, oh what a feeling
We gon' turn up tonight, raise your cup to the ceiling

Yeah you know we have fun, know we don't play around
Plus I roll with the baddest girls in town
Yeah I know you like it, know you like this sound
ATL shawty, you know how we get down
