

Swim

Ciara

Travel all around the world I'll even

My hidden treasure, nothing can measure
Moments so precious when you're here with me
You make me feel special like a first place gold medal
You're the winner of my heart
When I wake up in the morning first I think about
You and everything I can do without
Oh I wanna sing I wanna sing it out loud
Everything is changed 'cause I'm with you now
For no apparent reason all I do is smile
I don't have a trouble for singing now
I love you

One thing I know, my heart is yours
And I will be with you wherever you go
I'll run a million miles to you
Travel all around the world

I'll even swim swim swim swim
Swim to you baby
Swim swim swim swim swim swim to your love
Swim swim swim swim swim swim to me baby
Swim swim swim swim swim swim to my love

You understand me and I understand you
You got that good love and that's why I'm with you
It's more than physical deeper than they could know
The center of my heart
And I know that I'm not crazy to feel the way I feel
I know you feel the same way, so I'm gon' keep it real
One day you'll have it baby, a big house on the hill
Whatever you want from me whatever you want I'll be
So to me

One thing I know, my heart is yours
And I will be with you wherever you go
I'll run a million miles to you
Travel all around the world

I'll swim swim swim swim swim swim
Swim swim to you baby
Swim swim swim swim swim swim to your love
Swim swim swim swim swim swim to me baby
Swim swim swim swim swim swim to my love

I'm in love, I try to play it cool
But I can't control myself
I'm like there he go, there he go
I love you boy that's my boy
Don't care there's nothing I won't do for you
'cause don't matter how far
I'll get to your heart oh baby
I love you, that's my baby
I want you, I love my baby
Come closer that's my baby

I love ya oh oh baby

One thing I know, my heart is yours
And I will be with you wherever you go
I'll run a million miles to you
Travel all around the world

I'll swim swim swim swim swim swim
Swim swim to you baby
Swim swim swim swim swim swim to your love
Swim swim swim swim swim swim to me baby
Swim swim swim swim swim swim to my love
