Ciara, Big Freedia

You too blessed now to be stressing on it
Let your wings out, lemon peppa for me
When you cold just put some pressure on it
Now you winning, winning, winning, winning, winning, winning
Put ya hands up, get ya blessings, baby
Walk it, walk it out, big steppa on it
Girl, you came up, now they checking for ya
Now you winning, winning, winning, winning, winning, winning
Let's go

I fix my crown in the morning
And Heaven keeps raining on me
They say I can't, I out perform it
And I don't even try
You see, God don't play about me
I think He's playing favorites
Ain't nothing but light around me
I'm walking on the sky
It get hard, I know
Don't let 'em bring you down, trust me, girl, I know
And when you're feeling low
Don't let 'em bring you down, girl, you way too close

You too blessed now to be stressing on it
Let your wings out, lemon peppa for me
When you cold just put some pressure on it
Now you winning, winning, winning, winning, winning, winning
Put ya hands up, get ya blessings, baby
Walk it, walk it out, big steppa on it
Girl, you came up, now they checking for ya
Now you winning, winning, winning, winning, winning, winning
