You
Conclude I'm functioning correctly
So rest your heart
Caus' only you can stop me
From falling apart
And now I need to feel
The missing beat
The missing beat of my heart
For life
For life
I do, I do
I do, I do

Under neon disco lights
We pogo through the night
In the dry ice I catch a stare
I feel the fingers through my hair
Love like science, alchemy
Tonight the nightclubs are laboratory
I need a lightning bolt to this heart
To kick start my Frankenstein soul
For life
I do, I do
I do, I do

Under neon disco lights
We pogo through the night
In the dry ice I catch a stare
I feel the fingers through my hair
Love like science, alchemy
Tonight the nightclubs are laboratory
I need a lightning bolt to this heart
To kick start my Frankenstein soul
For life
I do
