

Train

Cibelle

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

I'm spending days, over and over and over and over again

I go through the days, over and over and over and over and over
and over again

Sitting in a train

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

Trees pass me by and take away a piece of me

Take me away within, deep down inside of me

Deep down, deep down, inside of me

I'm sitting in a train going down there, going where, going to
no-land

I'm sitting in a train going down there, going where, going to
no-land

It rides through a thousand dreams

Je vois, je vois, je vois le monde

Je regarde tout

Dans la vitesse moi, je suis partout

Je vois

Je regarde le monde

Je regarde tout

Dans la vitesse moi, je suis partout

Deep down

Inside

Of me

Je suis partout

Deep down

Inside
