

# Christmas Time

Cider Sky

Ooh ooh ooh, ooh ooh ooh, ooh ooh ooh  
Ooh ooh ooh, ooh ooh ooh, ooh ooh ooh

Hey, say if you're frozen  
You can always come to me  
I will take your hands in mine  
I can warm them easily

Winter snow gets so cold  
But you can always come home  
You can always come home

Red lights up the chimney tops  
And there's a fire that's warm  
And I will be waiting  
Got my heart it's all wrapped up  
You put your hand in mine  
And it feels like Christmas time  
Christmas time  
Christmas time  
Christmas time

Time, if I could stop it  
Then it would always be like this  
One starry night always together  
Under the mistletoe, a kiss

Winter snow gets so cold  
But you can always come home  
You can always come home

Red lights up the chimney tops  
And there's a fire that's warm  
And I will be waiting  
Got my heart it's all wrapped up  
You put your hand in mine  
And it feels like Christmas time  
Christmas time  
Christmas time  
Christmas time

You know I love you in my heart, I say it every day  
It's Christmas time, the sleigh bells ringing like it's on its way  
You know I love you in my heart, I say it every day  
Under the mistletoe, a kiss

Winter snow gets so cold  
But you can always come home  
You can always come home

Red lights up the chimney tops  
And there's a fire that's warm  
And I will be waiting  
Got my heart it's all wrapped up  
You put your hand in mine  
And it feels like Christmas time  
Christmas time

Christmas time  
Christmas time  
Christmas time
