

Fall

Cider Sky

Hangin' by the window
I've been dreaming 'bout you, ooh oh
Feelin' like I'm ready
It's like I'm ready for you, ooh oh

I cross the desert
I cross the sky
Look for you forever
Wake up tonight
Just around the corner
Maybe tonight I'll find you
Oh, some people fall
Some people fall apart
Some people fall while running in the dark
Some people fall when they run out of luck
Some people fall, some people fall in love

(La la la lalala lalala)

Every day I miss you
Like a song in my heart
I can hear the ending
But I don't know how it starts

I cross the desert
I cross the sky
Look for you forever
Wake up tonight
Just around the corner
Maybe tonight I'll find you
Oh, some people fall
Some people fall apart
Some people fall while running in the dark
Some people fall when they run out of luck
Some people fall, some people fall in love

Some people fall, some people fall apart
Some people fall while running in the dark
Some people fall when they run out of luck
Some people fall, some people fall in love

Every day people
Catchin' the sunrise
Watchin' the oceans flow oh oh
Every day people
Catchin' the sunrise
Watchin' the oceans flow oh oh

Oh, some people fall
Some people fall apart
Some people fall while running in the dark
Some people fall when they run out of luck
Some people fall, some people fall in love

Some people fall, some people fall apart
Some people fall while running in the dark
Some people fall when they run out of luck

Some people fall, some people fall in love
