Flames

Cider Sky

There was a midnight call
You put the lightning down
And tore yourself apart
Felt like the flame went out

And I don't know all the right words
To bring your heart back, your heart back.
I feel the same hit when it hurts.
Want you to know that, know that.

Say there is a fire in the dark when I close my eyes
And it's keeping me up at night and it's making me feel alive
I got a flashlight summoning up the stars
And it's showing them where we are.
We'll be lighting up the dark.
Oh oh oh flames.

We hit it way too hard.
We take it way too far
But it's a dying art.
It's just the way we are.

And I don't know what's the right way
to make them see that, see that.
Cause in this maze, yeah, we're all flames, we're all flames.

Say there is a fire in the dark when I close my eyes
And it's keeping me up at night and it's making me feel alive
I got a flashlight summoning up the stars
And it's showing them where we are.
We'll be lighting up the dark.
Oh oh oh flames.

There's no fire if there's no flames.

Say there is a fire in the dark when I close my eyes
And it's keeping me up at night and it's making me feel alive
I got a flashlight summoning up the stars
And it's showing them where we are.
We'll be lighting up the dark.

Oh oh oh flames.
