

All alone, you and me, grab a seat
Finally you've made it to me, now it's time to see
If you're ready
I wanna see if you're ready
Baby, I want you to show it off, do you want me
To take it all off, baby?
I wanna give you whatever you need

But we gotta be discreet
Baby, you gotta control it, I need you to hold it
Way up in the air, babe
Don't tell them
We gotta be discreet
The neighbors be knocking, the people be asking
What we've been doing
Ain't nobody's business what I do
But we gotta be discreet

You think I be tripping when I tell you, baby
Don't say nothing
You think I be tripping, but...
You think I be tripping...

All alone, got you all alone, that's how it's gotta be
Yeah, ooh, baby, give me your phone
Oh, baby, cut it off
Ooh, yeah
I need your full attention, focus on me
Protecting my privacy
Uh, uh, be quiet, fight it, I can see that you trying
I know that you're excited

But we gotta be discreet
Baby, you gotta control it, I need you to hold it
Way up in the air, babe
Don't tell them
We gotta be discreet
The neighbors be knocking, the people be asking
What we've been doing
Ain't nobody's business what I do
But we gotta be discreet

Wait, daddy, wait a minute
Want it to be over, you finished
Wait, don't turn down

You've gotta be discreet
Baby, you gotta control it, I need you to hold it
Way up in the air, babe
Don't tell them
We gotta be discreet
The neighbors be knocking, the people be asking
What we've been doing
Ain't nobody's business what I do
But we gotta be discreet

You think I be tripping when I tell you, baby

Don't say nothing
You think I be tripping, but...
You think I be tripping...
But we've gotta be discreet
