

# Faded

Cierra Ramirez

Ooh wee, Cierra  
Take a sip with me  
Young Honey, faded  
Take a sip with me, faded  
Take a sip with me, faded  
Your lips on me now

I can see ya now with ya hands on me  
Glass half full but your cup empty  
You can be my Jack, I can be your Brandy  
What you know about that, know about that?  
Clink clink, lemon drop to the floor  
Ooh we slow wine, sipping Bordeaux  
Take another sip, now we moving slo-mo  
What you know about that, what you know about that?

So intoxicated tonight  
So let's get lost, get under the lights  
Hurry up, hurry up, come get it, babe  
Bottoms up, bottoms up, know you're thirsty  
Your lips on me now, we faded  
Hurry up, hurry up, come get it, babe  
1, 2, body shocked when you kiss me  
Your lips on me, now we faded  
Yeah, faded, yeah, faded

Get a little faded, get a little buzzed  
We could shoot it straight or chase it with some love  
Running outrageous, we don't give a fuck  
Even when we faded out, it still ain't enough  
Honey Jack D's til we catching a wave  
Bottles coming in like a fucking parade  
I like him cause he killing, do nothing but slay  
And when he lick it all, I got nothing to say

Hold up, hand me your keys  
So so drunk, drunk, sex on the beach  
Feel it, warm it up like we down in Belize  
What you know about that, know about that?  
Stay on one, we be up all night  
One more round, baby, I just might  
One more round, baby, I just might  
What you know about that, know about that?

Cause we so intoxicated tonight  
So let's get lost, get under the lights  
Hurry up, hurry up, come get it, babe  
Bottoms up, bottoms up, know you're thirsty  
Your lips on me now, we faded  
Hurry up, hurry up, come get it, babe  
1, 2, body shocked when you kiss me  
Your lips on me, now we faded  
So faded, faded, so faded, faded  
Your lips on me, now we faded

She said she feel that this lifestyle so jaded  
When I'm with you, I can't lie, girl, I feel amazing

Can't judge you by your cover, gotta flip the pages  
Find out what it is that's gon' make me stay here  
Popping bottles of champagne, girl, you represent the game  
You just staying in your lane, chilling, getting faded  
From the way you say your name to them heels in your frame  
I just wanna take you home and facilitate it  
Everybody looking at us like we really made it  
Every night, we popping bottles like we celebrating  
And my girl black and white, no segregation  
And I'm going for the kill, no hesitation

Cause we so intoxicated tonight  
So let's get lost, get under the lights  
Hurry up, hurry up, come get it, babe  
Bottoms up, bottoms up, know you're thirsty  
Your lips on me now, we faded  
Hurry up, hurry up, come get it, babe  
1, 2, body shocked when you kiss me  
Your lips on me, now we faded  
Take a sip with me, faded  
Take a sip with me, faded  
Your lips on me, now we faded
