

Vanity

Cierra Ramirez

Vanity, I'm caught in your fingers
Yelling out your name, I'm yelling out Vanity
Can't sleep without you on my mind
I'm addicted to Vanity
Love stronger than ketamine or methamphetamine
Draining my soul right out of my body (draining my soul right out of my body
)
But I'm yelling out, Vanity

Your love is like my enemy, you're gonna be the death of me
Venom in my veins from your kiss, legs numb, too faded to feel shit
Feeling better than I ought to be
Rippling waves of sin, a little gin with the tonic is where I'll probably be
And when I leave, I hope you'll follow me
Running out of time, I'm slowly draining

But still I fall asleep at night and you're the last thing on my mind
There ain't a drug this side of town I can use to ease the night
I wanna be inside of your mentality, but the thought of your body is surround
ing me
Got me on my knees (baby please)
I'm (I'm) sitting here stuck, just yelling out

Vanity, took all the sanity away from my head and left me alone
Can't you see, not even therapy can stabilize my head or rebuild my soul
I'm out of my mind [Repeat x3 (my mind, my mind)]
Cause I'm out of my mind (Repeat x 4)
I'm out of my mind and I'm yelling out

Vanity, I'm covered in sin of the shit again
I'm so addicted to, Vanity
Can't sleep cause you're always on my mind
I wish it wasn't Vanity
It's like a match touching kerosene, the shit you did to me
Draining my soul right out of my body (draining my soul right out of my body
)
But I'm yelling out, Vanity

I can't stay away
She put that thing on my lap and that's where I got carried away
Moving my hands to your hips, I can tell by the look on your face that you want it
I'm hooked on your love and I can't get off it
We got personal problems and we're praying that we can solve them (ah)
Standing still with no emotion, fuck love
I'd rather drown deep in the ocean

Because I get no sleep at night, without you somewhere on my mind
I took a hit off of your love now I can't beat the night
You're too deep inside of my mentality and the thought of your body is surpassing me
Got me on my knees (baby, please)
I'm (I'm) sitting here stuck, just yelling out

Vanity, took all the sanity away from my head and left me alone
Can't you see, not even therapy can stabilize my head or rebuild my soul
I'm out of my mind [Repeat x3 (my mind, my mind)]

Cause I'm out of my mind (Repeat x 4)
I'm out of my mind and I'm yelling out
Vanity
