

## Sunsetz

## Cigarettes After Sex

Sun sets, we wander through a foreign town  
Strangely, there's nobody else around  
See you open your dress and show me your tits  
On the swing set at the old playground

And when you go away, I still see you  
The sunlight on your face in the rear view

Sun sets, I want to hear your voice  
A love that nobody could destroy  
Took photographs like Brautigan's book covers  
That we both adored

And when you go away, I still see you  
The sunlight on your face in my rear view  
This always happens to me this way  
Recurring visions of such sweet days  
And when you go away, I still see you  
The sunlight on your face in my rear view  
When you go away, I still see you  
The sunlight on your face in my rear view
