One More Shot

CIL

Oh, my God, I won, damage is done
You had your fun, bet you're sorry now
You dressed me in white to just lay me down
I would've stayed 'til death took me out
But then you fucked up and gave me the gun

So, I'll give you one more shot
You think that I'm crazy, I know
You wanna just leave me, then, go
Blood on my hands, you're already dead
But I'll give you one more shot
Your body is cold, but I'm hot
You think that I'm playing, I'm not
You know how this ends
I'll put you to rest with one more shot

I used to hold ya all through the night
'Til I saw the purple under your eyes, oh, I'm not surprised
You're still doing drugs, but like to pretend
That you and that girl were only just friends
I saw the whole truth, that bruise on your neck
Oh, I could just kill you, well, that just depends

If you're sorry
Want me to forgive you?
If you want me to

I can give you just one more shot
You think that I'm crazy, I know
If you wanna leave me, then, go
Blood on my hands, you're already dead
But I'll give you one more shot
Your body is cold, but I'm hot
You think that I'm playing, I'm not
You know how this ends
I'll put you to rest with one more shot
