

# Alive

Cimorelli

I sat alone in the cold  
In my room that night  
My face was wet with the tears  
Of a thousand and one lonely nights

No one came  
No one called  
No one cared  
And no one saw

And yet everything was alright  
As I sat there in my loneliness  
Wrapped my arms around my knees  
And I held tight  
I could feel my heart beat

That's how I know  
I'm alive [8x]  
I feel because I'm alive

Sometimes it's not easy to  
And I don't want to feel  
But if I close off and just be numb  
What would I become?

Shutting down  
Getting by  
Even though  
There's pain inside

That's how I know  
I'm alive [8x]  
I feel because I'm alive

I live, I breathe  
Wanna feel every single thing  
I'm alive  
I wanna live, not just survive  
I'm alive [10x]
