

Chasing Air

Cimorelli

Chasing air
Chasing air

Red line to the other side
Still thinking 'bout you tonight
It's raining hard, it's getting cold
I don't know which way to go
Feel so invisible
Ghost walking down your hall
Throwing stones, you never call
This time I've hit the wall

Oh, no
Getting over you
Oh, no

Tryna catch your heart
But it feels like chasing air
Gotta slow you down
I won't let you disappear
Tryna catch that star
Make a wish and you'll be here
Where'd you go? Need to know
'Cause it feels just like I'm chasing air (air, air)
Feels just like I'm chasing air (air, air)
Chasing air

Straight past all the frozen lives
Your hold I need tonight
Empty streets and empty cars
Empty sky from the falling stars

Oh, no
Getting over you
Oh, oh

Tryna catch your heart
But it feels like chasing air
Gotta slow you down
I won't let you disappear
Tryna catch that star
Make a wish and you'll be here
Where'd you go? Need to know
'Cause it feels just like I'm chasing air (air, air)
Feels just like I'm chasing air (air, air)
Chasing air

We played them games
Broke the rules
I came undone
How could I have believed you're the one?
Oh no
You made those moves
I laughed so hard
With all that charm
How did you do so much harm?
Yeah

Tryna catch your heart
But it feels like chasing air (air)
Gotta slow you down
I won't let you disappear
Tryna catch that star
Make a wish and you'll be here (I wish that you were here)
Where'd you go? Need to know
Cause it feels just like I'm chasing air (air, air)
Feels just like I'm chasing air
