

## Fall Back

Cimorelli

Why's there just one grocery store in this town  
I was only tryna get some milk  
The last thing on my list was to see you around  
It's kinda awkward cause we never talk but still  
When I saw your black Chevy it hit me my heart was pounding  
Though I hate it you still get me  
When you come around

I fall back wish we had it all back  
Said I was done with you but I just can't run from you  
Baby now it's all bad  
You won't even call back  
But every time I catch you looking at me like that  
I, I fall back  
I, I fall back

Saturday night at the homecoming game  
I didn't even know you came to these  
Sitting on these bleachers when I heard your name  
Looked to my right and I couldn't believe  
You're in that brown tee and those jeans my heart is pounding  
Tryna hide it with some other guy  
But I miss you and I wish that we could

Fall back wish we had it all back  
Said I was done with you but I just can't run from you  
Baby now it's all bad  
You won't even call back  
But every time I catch you looking at me like that  
I, I fall back  
I, I fall back

You'll just go and walk away with all your friends  
We'll just leave without saying goodbye again  
Wish I had it all back I wish you would come back  
Everytime I see you I just  
Fall back wish we had it all back  
Said I was done with you but I just can't run from you  
Baby now it's all bad  
You won't even call back  
But every time I catch you looking at me like that  
I, I fall back I, I fall back I, I fall back I, I fall back
